Syrian Arab Republic
Snapshot of Whole of Syria health sector response (4Ws)

Medical Procedures provided during September 2019, per sub-district

Treatment Courses delivered during September 2019, per sub-district

Number of Medical Procedures

- 1 - 10,000: 1,855,528 (86%)
- 10,001 - 50,000: 1,994,560 (99%)
- 50,001 - 100,000: 31,847
- 100,001 - 200,000: 2,250,000

Number of Treatment Courses

- 1 - 10,000: 1,500,000
- 10,001 - 50,000: 4,050,000
- 50,001 - 100,000: 6,671
- 100,001 - 160,000: 1,303

Medical Services by Response Modality

- Medical Procedures: 1,855,528 (86%)
- Treatment Courses: 1,994,560 (99%)

Number of Medical Procedures and Treatment Courses delivered by month (2019)

Medical Services by Funding Source

- Medical Procedures: Funded through UN: 1,102,474 (51%)
- Treatment Courses: Funded through UN: 140,376 (11%)

Reach and PiN by Severity Level*

- Treatment Courses: Severity >3: 50%, Severity =3: 43%, Severity <3: 7%
- Medical Procedures: Severity >3: 47%, Severity =3: 46%, Severity <3: 7%
- People in Need (Jul 2019): Severity >3: 48%, Severity =3: 44%, Severity <3: 8%

*These numbers are cumulative for 2019

Notes:
1. Unless otherwise noted, all data represents the response during September 2019. Cumulative data for 2019 is reported in Whole of Syria health cluster bulletin.
2. Differences in health sector response modalities account for variations in data and overall reach. Cross border (XB) works through direct service provision and running of health facilities by WB health partners while programming from within Syria works through both direct service provision and a complementarity approach to support the existing public health system operated by Ministry of Health and Ministry of Higher Education.

Data source: Whole of Syria 4Ws database, and Severity Scale July 2019 (Severity scale should be updated on bi-annual basis)
