The Yemen Humanitarian Response Plan (YHRP) in 2014 will require USD 591 million to deliver assistance to 7.6 million people. It is estimated that 14.7 million people are in need of some form of humanitarian assistance in 2014. The 2014 YHRP aims to provide life-saving assistance for the most vulnerable, and also to address underlying causes of vulnerability through early recovery, enhancing resilience, building local capacity and finding durable solutions for displaced people. The Plan will seek to ensure meaningful and equitable access to services, resources and protection measures for women, girls, boys and men.

Impact of armed clashes on humanitarian assistance

Fighting in northern Yemen has created critical humanitarian needs. As cold weather sets in, women and children displaced due to the conflict need warm clothing and shelter. However, humanitarian access is restricted by parties to the conflict and insecurity remains. The blockade of the Haradh-Sa’ada road is hampering delivery of assistance to Internal displacement beneficiaries in Al Mazraq camps. Reports from Dammaj speak of extensive damage to infrastructure and urgent humanitarian needs. There is also conflict and reports of displacement elsewhere in Sa’ada, Amran and Hajjah Governorates.

Refugees and new arrivals in 2013

The Yemen Humanitarian Response Plan (YHRP) in 2014 will require USD 591 million to deliver assistance to 7.6 million people. It is estimated that 14.7 million people are in need of some form of humanitarian assistance in 2014.
