INCIDENTS BY CATEGORIES

- **Attacks (46%)**
- **Looting (7%)**
- **Kidnapping (13%)**
- **Other (11%)**
- **Fighting (23%)**

Proportion of humanitarian constraints on incidents involving humanitarian partners

According to incidents reports, Incident again humanitarian actors remain high in August. The most prevalent incidents remained violence against personnel, assets and facilities with serious incidents of assault and threats of humanitarian staff due to increased criminality and banditry on road axis. Inter-community conflicts and kidnapping of civilians persisted in regions including Ouaka, Ouham and Nana-Mambéré Provinces. Ongoing insecurity continued to impede humanitarian operations and the ability of humanitarian actors to reach affected populations.

**BANGUI INCIDENTS** (recorded in August 2015)

This product is based on incidents with a humanitarian impact, which focuses on the nine global humanitarian access constraints*.

Humanitarian access continues to be hindered by various constraints: particularly violence against civilians including aid workers/assets, interference in the implementation of humanitarian activities and active hostilities. Since January 2014 more than 2,115 security incidents have been recorded, including 283 acts of violence against humanitarian organisations. However the number of reported security incidents has steadily decreased over the past three months from a record 198 in February to 61 in August. Attacks against aid workers are persistent, including a worrying trend of kidnappings.

Incident trends

- **61 incidents reported in August 2015**
- **18% incidents against aid workers**
