

SITUATION OVERVIEW

The start of the traditional spring fighting season has caused significant population movements in the Northern and Western regions, specifically in Badakhshan, Baghdis and Kunduz provinces. Smaller scale conflict displacement has however also been recorded in Baghlan, Farah, Faryab, Ghor, Herat, Jawzjan and Sar-e-pul.

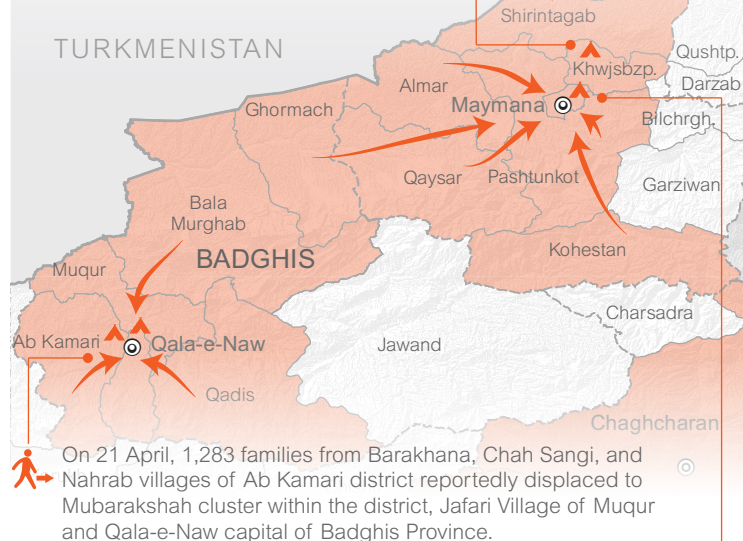

BADGHIS and FARYAB

 1,283 IDP families reportedly displaced from Ab Kamari, Bala Murghab and Qadis identified in Badghis. 190 IDP families were assessed in Faryab.

400 families reportedly displaced from Astana valley in Shringtabad district to Dawlatabad district. Assessment is pending due to insecurity.

46 families reportedly displaced from Morchagal village in Khwajasabzposh district assessed on 5 May. Response is pending.

On 21 April, 1,283 families from Barakhana, Chah Sangi, and Nahrab villages of Ab Kamari district reportedly displaced to Mubarakshah cluster within the district, Jafari Village of Muqur and Qala-e-Naw capital of Badghis Province.

 A joint assessment identified 1,086 IDP families in Qala-e-Naw, 145 families in Muqur and 52 families in Ab Kamari districts in Badghis. 195 additional IDP families were identified in Farah, Ghor and Herat.

 IRC, UNICEF, WVI and WFP provided assistance to the verified IDPs in the Western Region. Response is pending in Faryab province.

KUNDUZ and BAGHLAN

 18,355 families reportedly displaced from 8 districts in Kunduz Province. Around 800 families reportedly remain displaced in Baghlan Province.

 18,355 families from Aliabad, Chardarah, Dasht-e-Archi, Emamsaheb, Khanabad, Kunduz and Qala-e-Zal reportedly displaced to Kunduz city and surrounding districts. Assessments and response are ongoing.

Reportedly, 600-700 families are living in displacement in Baghlan-e-Jadid district. ARCS has conducted a preliminary assessment. Response is pending.

 Around 100 families reportedly remain displaced in Dahana-e-Ghori district. Assessments are pending due to access constraints.

 8,558 families have been assessed so far in Kunduz city, out of which, 3,640 were identified as needing assistance. Families in inaccessible areas were referred to ICRC and ARCS for assessment.

 Response is ongoing in Kunduz city and 2,500 families have been assisted so far. IDPs in Baghlan have been referred to ARCS and ICRC.

BADAKHSHAN

 Around 2,000 families reportedly displaced in Jorm. 56 IDP families from Kunduz district are reportedly in Fayzabad.

56 families are reported to be displaced from Gultepa area of Kunduz district to Fayzabad district. A joint assessment is ongoing.

474 families reportedly displaced from Baharak, Jorm and Warduj districts. Assessments and response have been completed.

 Around 2,000 families are reported to be displaced in May within Jorm district. Assessments are underway and actual figures are expected to substantially reduce.

 Assessments are ongoing in Fayzabad and Jorm. Earlier inter-agency assessments verified 256 families in Baharak and 218 families in Jorm displaced from Baharak Zorm and Warduj districts.

 WFP and UNHCR have provided food and NFIs to the 474 assessed families. Other caseloads are awaiting verification.
