Categorization of Conflict-Induced IDPs

Based on DTM Round 10 (April 2018)
Conducted by IOM and partners, together with Government
(NDRMC and Regional DPPBs)
IDP snapshot on reasons for internal displacement

To recall: DTM tracks sites starting from 20 households in size

*Other factors causing displacement were reported to be economic/development projects, severe wind, fire, social tensions and protracted displacement due to volcanic disruptions
**Updates in DTM round 10 on conflict IDPs**

**Sites closed in March-April 2018***
- 8 due to relocation
- 9 returned to place of origin

**New sites, appeared since February 2018, with more than 500 IDPs**
- 32

*Following the last round of DTM, in May 2 more large collective centers have been closed due to relocation: Kera (Slaughterhouse) and Hamaressa.*
Change of conflict IDP population size (Round 10 compared to rounds 8 and 9)

Round 10 vs 9 for sites with more than 2,000 IDPs
- 21 sites showed **increase** by more than 20%
- 27 sites showed **decrease** by more than 20%

Round 10 vs 8 for sites with more than 2,000 IDPs
- 27 sites showed **increase** by more than 20%
- 32 sites showed **decrease** by more than 20%
