

# Tropical Storm Eloise - Accommodation centers

Situation Report - Update  
16 February 2021

The CCCM cluster has been providing logistical and technical support to the INGD and monitoring the situation at the temporary accommodation centers through static and mobile teams, as well as supporting in the identification of solutions-orientated options for those displaced. As the deactivation process of accommodation centers took place under the leadership of the Government and with support from the inter-agency task teams on the ground, as of 15 February, a total of 7 accommodation centres remain active in Sofala Province. Another 4 centers remain active in Manica Province. In close coordination with the INGD and as the situation evolves, including due to movements of populations, CCCM teams are regularly maintaining and updating key information about the temporary sites and accommodation centers.

The table below provides an overview of the number of people in the Temporary Sites and Accommodation Centers opened as of the 15<sup>th</sup> of February and the deactivation dates of centers during the month of February. The table does not report on the sites deactivated prior to February and for which the update was sent as per the latest CCCM Cluster report.

Accommodation centers: Opened as of 15 February 2021						
Province	District	Name of the accommodation center	HH in centers as of 15 Feb.	Ind. as of 15 Feb.	Situation overview

<b>As of 15 February 2021</b>			<b>5019</b>	<b>23329</b>		

\*Ifapa accommodation center, Beira, was formally deactivated on 8 February 2021. A site was however set-up to accommodate populations that can not return to their area of origin. As of 16 February, a total of 80 households are remaining on site while awaiting for longer-term solutions. The temporary site is not considered as an accommodation center but as a temporary site.

\*\* For more information on the conditions in centers remaining opened and services available, [please see the MSLA in accommodation centers – DTM/INGD](#)
