Number of targeted sectors by district in July 2020

UN Security Council Resolutions 2165/2191/2258/2332/2393/2449/2504

Through the adoption of resolutions 2165 (2014), and its subsequent renewals 2191 (2014), 2258 (2015), 2332 (2016), 2393 (2017), 2449 (2018) and 2504 (2020) until 10 July 2020, the UN Security Council has authorized UN agencies and their partners to use routes across conflict lines and the border crossings at Bab al-Salam, Bab al-Hawa, Al-Ramtha and Al Yarubiyah, to deliver humanitarian assistance, including medical and surgical supplies, to people in need in Syria. As of 10 January 2020, based on resolution 2504, Bab al-Salam, Bab al-Hawa are the only crossings open at this point in time. The Government of Syria is notified in advance of each shipment and a UN monitoring mechanism was established to oversee loading in neighboring countries and confirm the humanitarian nature of consignments.

* Includes 2.15 million children for polio vaccination in 2015, and excludes vaccination from 2016 to 2020. Given the challenges the sector faces in measuring individual beneficiaries, the indicator for the number of medical procedures is used as an aggregate indicator that serves as a proxy measure for overall progress in health service delivery in covered areas.

**UN cross-border response**

Humanitarian supplies covering various sectors are delivered by UNHCR, UNICEF, UNFPA, WFP, WHO, FAO and IOM. The beneficiary numbers represent people reached by relief items and supplies transported in trucks using border crossing from Turkey as authorized by the resolution 2504 (formerly 2165 in 2014 and 2449 in 2018).

UN agencies, in addition to supplies, also implement programmes to ensure that people receive basic services such as education, health, nutrition, protection, water and sanitation etc. The first UN shipment from Turkey started on 24 July 2014.

*An undetermined percentage of the beneficiaries may have received multiple interventions in a sector.*
