

## Update on the Dengue situation in the Western Pacific Region

### Northern Hemisphere

#### China

As of 31 December 2016, there were 2098 cases of dengue reported in China in 2016. This number is lower than that reported during the same period in 2015 (Figure 1).

National Health and Family Planning Commission

#### Malaysia

In week 51, the number of reported dengue cases was 1,590 cases, an increase from 1,397 cases (an increase of 13.8 %) reported in the previous week. The cumulative number of cases reported in 2016 (100,028 cases) up to date, is less than that reported during the same period in 2015 (118,325 cases). As of week 51, the cumulative number of dengue deaths for 2016 was 231 cases, compared to 322 deaths during the same period in 2015 (Figure 2).

## Viet Nam

As of 30 September 2016, there were 79,204 cases of dengue including 27 deaths, reported in 44 out of 63 provinces in Viet Nam. In September 2016, there were 15,700 cases reported including 7 deaths. This is an increase of 22.9% in number of cases and a decrease of 5 deaths compared to same period in 2015. Compared to the median of the 2011-2015 periods, the cumulative number of cases has increased by 96.1%.

 Department of Health, Australia

## Pacific Islands Countries and Areas

### French Polynesia (No update)

In week 42, 22 confirmed dengue cases were reported in French Polynesia (Figure 7). Four (18%) of the 22 cases were confirmed as DENV-1 infection.

Figure 7: Number of laboratory-confirmed cases of Dengue per week in 2015-2016, Centre for Occupational Health and Public Safety, French Polynesia

### Papua New Guinea

From 1 January to 18 December, 81 imported cases of dengue with travel history to Papua New Guinea were reported by Queensland Health (Weekly Report on overseas acquired dengue notifications). Among these cases, 5 were DENV-1, 57 were DENV-2, 4 were DENV-3, 4 was DENV-4 and 11 cases were of undetermined serotype.

### New Caledonia

As of 3 January 2017, 33 dengue cases were reported, and the number of cases has been decreasing since June 2016 (Figure 8).
