As of May 2020, there are a total of 66 operational partners supporting the delivery of humanitarian response in Ethiopia, spread out over 88 zones and 614 woredas. Since the arrival of COVID-19 in Ethiopia, and subsequent prevention and containment measures, certain humanitarian activities have been affected. Seven out of eight clusters estimated the impact of COVID-19 on their planned response and overall activities decreased by 6 per cent in 65 woredas. While the impact of COVID-19 on partner activities has decreased in all sectors apart from protection compared to April, the Education sector remains the most affected due to delayed activities. West-Wellega zone remains the most impacted area due to delayed, moderately, and severely affected protection activities.

66 total number of partners

- 42 International NGO
- 13 National NGO
- 5 UN agency
- 6 Government

Number of partners by cluster

- WASH: 41
- Protection: 21
- Health: 15
- Nutrition: 12
- Education: 9
- ESNFI: 6
- Agriculture: 5
- Food: 4

**COVID-19 IMPACTS**

- 6.2% of humanitarian activities affected by COVID-19, of which:
  - 3.8% delayed (activity was planned, but start had to be postponed)
  - 1.3% expected to be moderately affected (34-66% of targeted beneficiaries are expected to be reached)
  - 0.6% expected to be severely affected or stopped (0-33% of targeted beneficiaries are expected to be reached)
  - 0.2% expected to be minimally affected (67-99% of targeted beneficiaries are expected to be reached)
  - 0.1% cancelled (activity was planned, but won’t be able to be conducted anymore)
  - 1.3% expected to be moderately affected (34-66% of targeted beneficiaries are expected to be reached)
  - 0.2% suspended (activity had started but had to be halted)

**Impact of COVID-19 on partners activities by cluster**

- Education: 76%
- Protection: 29%
- Agriculture: 9%
- Health: 3%
- ESNFI: 0%
- Food: 0%
- WASH: 0%

Note: Nutrition cluster did not report on impact of COVID-19 on the May 3W.

**Impact of COVID-19 on partners activities by zone**

- West Wellega (Oromia): 30%
- Kemashi (BG): 23%
- South Eastern (Tigray): 18%
- Gedeo (SNNP): 15%
- South West Shewa (Oromia): 15%
- West Guji (Oromia): 12%
- Others: 6%

Note: Others include 15 zones from multiple regions that reported less than 12 per cent impact.
