

SITUATION OVERVIEW

Since the fall of Mosul on 9 June, Armed Opposition Groups (AOGs) – including Baathists, tribal militias and members of former regime/military – along with the Islamic State in Iraq and the Levant (ISIL), have taken control of large swathes of Iraq’s predominantly Sunni provinces of Ninewa, Salah El Din, Diyala. The cities of Mosul, Tikrit, Tal Afar, Beiji, Quayyara, Sinjar, Suleiman Bek, Rashad, Hawijah, Riyadh, Fallujah, Saqlawiyah, are currently under AOG control. Since January much of Anbar has been under ISIL control.

This has led to internal displacements on a massive scale. Iraq is now contending with one of the largest internal population displacements in the world. Over a million people have been displaced since January this year. Approximately 560,000 people have been displaced from Anbar. Following the fall of Mosul an estimated additional 650,000 persons have been displaced.

The number of displaced persons continues to increase rapidly. As of 19 of June 2014, the Ministry of Displacement and Migration (MoDM) confirmed there are 93,108 IDP families registered inside and outside Anbar Governorate (22,108 IDP families are residing outside of Anbar Governorate and the remaining 71,000 IDP families are residing within Anbar Governorate). On 11 June 2014 approximately 500,000 people fled from Mosul city (83,340 IDP families).

Ensure the affected population's minimal nutritional needs are met through regular food distributions.

Needs

- Displaced people are resorting to negative coping strategies. Many families are now only eating one meal a day.
- Longer term displaced with minimal opportunities for livelihoods are becoming reliant on food assistance.

Response

- Monthly food parcels distributed providing families with approx 1,700kcal per person per day.
- Provision of equitable safety net, production and livelihoods specific and seasonally appropriate inputs to pastoral, agro-pastoral and agriculture food insecure

NFI/SHELTER

Provision of tents and non-food items; supporting reconstruction

Needs

- The majority of IDPs are currently inadequately accommodated in schools, mosques, abandoned buildings and open fields.
- Space in temporary housing (mosques, schools) has been exhausted.

Response

- Procurement and distribution of tents for 25,000 IDP families.
- Rehabilitation of accommodation locations. Distribution of over 139 thousand NFI kits.

For more information, contact bulbul@unhcr.org

PROTECTION

Ensure displaced and affected populations have access to legal assistance and protection services.

Needs

- IDPs face abuse, discrimination, and lack of safety.
- IDPs with specific needs, including women or children, require legal, financial and psychosocial support.

Response

- Reinforcing protection and monitoring mechanism through existing partnerships and mobile teams.
- Emphasis on registration of IDPs and identification of legal assistance and vulnerable groups

For more information, contact nassif@unhcr.org

Logistics

Assist with coordination and an information management mechanism to maintain supply chain corridors and strategic storage facilities.

Needs

- Assist with coordination and an information management mechanism to maintain supply chain corridors and strategic storage facilities.

Response

- Identifying and maintaining supply chain corridors and strategically placed storage facilities and provide transport and storage services for humanitarian partners
