KEY FIGURES

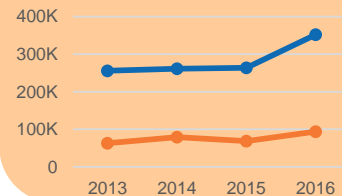

Food Security

2.6M Food insecure people
incl. **484K** Severe food insecure people

Nutrition

94K SAM children
352K MAM children

Natural Disasters

210K
To be potentially affected by floods in 2016

150K
Potential flood victims to be targeted

Health

143
Suspected meningitis cases

KEY DRIVERS OF THE CRISIS

The approaching lean season, as well as low and late funding, continue to increase the overall chronic vulnerability and erode communities' resilience, many of which resort to negative coping strategies.

The nutritional situation is critical, with two several regions and departments exceeding the WHO threshold of 15%. The north east of the country is particularly affected by the nutritional crisis, requiring an urgent intervention in the coming months.

Recurring floods during the rainy season could affect over 210.000 persons. The provision of hygiene kits and WASH-in-Nut programmes will be essential to avoid a further deterioration of the nutritional situation and to strengthen communities' resilience.

HDI Ranking*

170/187

Life Expectancy*

66.5

GDP Growth Rate*

4.7%

U5 Child Mortality*

47/1,000
