

Background

The Logistics Cluster coordinates and facilitates a **weekly passenger movement** between Djibouti and Aden on the WFP-chartered vessel, VOS Apollo, which is also used for emergency rescue and evacuation purposes. Standard Operating Procedures are available at: www.logcluster.org/document/yemen-passenger-sea-transport-sops-march-2018

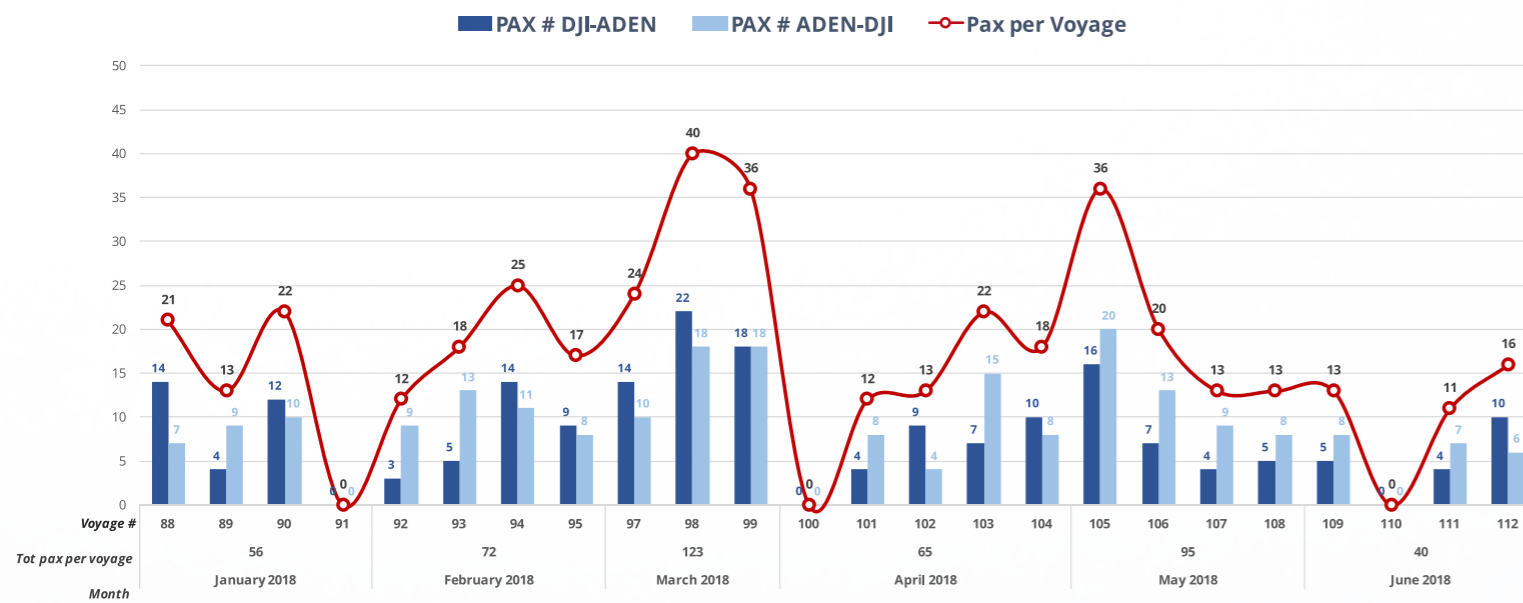

The VOS Apollo has a capacity of 600 mt, therefore it is also used to transport cargo from Djibouti to Aden on behalf of humanitarian organisations when the need arises. Standard Operating Procedures are available at: www.logcluster.org/document/standard-operating-procedures-sops-djibouti-sea-transport-march-2018
