SYRIA OPERATION OVERVIEW
AUGUST 2019

BACKGROUND
The WFP-led Logistics Cluster was activated in Syria in January 2013, in order to facilitate access to crucial logistics services for all operations across the region, including surface transportation, contingency fuel provision and storage, cross-border transhipment services, and warehousing. In September 2014, the Whole of Syria (WoS) approach was adopted as a result of the UN Security Council Resolution (UNSC) 2165, bringing together regional separate operations into a single framework.

TRANSPORT & STORAGE
In August the Logistics Cluster facilitated the transport of 48 m³ of Logistics items on behalf of SARC.

In addition, 1,028 m³ of humanitarian goods were received into common storage facilities in Qamishli and Rural Damascus on behalf of UNHCR, UNICEF and WHO.

CROSS-BORDER OPERATIONS
To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination and facilitates the transshipment of UN agencies’ cargo being transported cross-border into Syria through UNSC-authorised border crossings.
