VALUE OF STORED CARGO

ONE YEAR AT A GLANCE

In 2018, the Logistics Cluster fulfilled:

The logistics services were used by nine Clusters (Shelter, Health, WASH, Food Security, Nutrition, Protection, Logistics, Early Recovery, Telecommunications), with the three main users being:

The remaining requests either were canceled by the service users, or were still pending at the end of 2018 for operational reasons.

Overall, the Logistics Cluster facilitated the transport of

Compared to 2017

This is largely due to the increased needs and humanitarian response in Yemen in 2018.

The Logistics Cluster reached 66 organisations working in Yemen, through common services and coordination mechanisms: 35 INGO, 8 NNGO, 13 UN, and 10 among government representatives, foundations and other organisations.

HIGHLIGHT

In response to the Cyclone Makunu that hit the Socotra Governorate in Yemen from 23 to 25 May 2018, the WFP-led Logistics Cluster coordinated airlifts of humanitarian cargo from Aden to Socotra with the aircraft normally prepositioned in Djibouti to carry out airlifts to Sana'a. Four rotations were carried out over five days, fulfilling all service requests submitted to the Logistics Cluster.

Overall, 52 mt/241 m³ of relief items were transported on behalf of WFP, UNHCR, UNFPA, IOM and UNICEF.
