

SOMALIA - Humanitarian Access Map

April 2012

Understanding this map

This map illustrates the degree of difficulty faced by humanitarian agencies working in Somalia with an analysis made at district level. It is not a reflection of the physical presence of humanitarian partners or of the volume of humanitarian assistance provided in each district.

The "Access Coefficient" is based on eight indicators: International staff presence (UN and INGOs), UN staff movements, NSP security risk assessments, Humanitarian flights, Administrative Impediments & Checkpoints, Security incidents affecting humanitarian agencies, Perception of international humanitarian organizations and Stability of the area. Each of these indicators is evaluated and receives a notation from 1 (extremely negative) to 5 (positive), based on standardized assessments.

This map is done in collaboration with NSP

Data Source: NSP & OCHA Somalia
Admin. Layers: UNDP, 1998 (modified NSP)
Datum: WGS84

The designations employed and the presentation of material on this map do not imply the expression of any opinion whatsoever on the part of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Access Coefficient	Description
1 - 10	1: Access extremely restricted/denied
11 - 20	
21 - 45	
46 - 70	
71 - 85	
86 - 100	100: Unrestricted access
	Status could not be determined
