The Camp Management bi-weekly tracker report is a service monitoring and gap analysis tool produced by the CCCM/Shelter/NFI sector. The tracker supports humanitarian partners in identifying gaps in assistance and service delivery. It enables stakeholders to track activities, identify gaps and thereby improving the delivery of assistance.

As of April 2020, 158 camps were covered by partner agencies and the sites covered are located in the following Local Government Areas (LGAs) in Adamawa State: Fufore, Girei, Mubi South, Yola South and Yola North while in Borno State, the sites are located in Bama, Dambboa, Dikwa, Gwoza, Jere, Kaga, Komarga, Maiduguri, Monguno, Ngala and Njanzai LGA.

**KEY HIGHLIGHTS**

In this reporting period, over 1,200 households were affected by a massive fire outbreak in the International School (IS) camp in Ngala LGA. The fire also led to the loss of 17 lives from the IDP community and damage to household materials. Partners reported on continuous tension from the IDP community in the camp since the massive fire outbreak. This has hampered service delivery, including the provision of emergency shelter and Non-Food Items (NFI) to the victims, and to the most vulnerable population. Under Presidential directive, a high-level delegation team comprising of the Borno state government, National Emergency Management Agency (NEMA), State Emergency Management Agency (NEMA), and North East Development Commission (NEDC) representatives, with support of the humanitarian community is scheduled for a mission to engage with the community and their leaders to find an amicable solution to the standoff.

Preparedness and response planning on the COVID-19 pandemic is greatly prioritized in the Northeast Nigeria response, and some main CCCM activities include piloting an awareness survey on COVID-19 prevention and responses, containment methods and referral pathways. Improvement of the reception capacities in the Borno and the border entry points continues with the construction of quarantine safe spaces in Pulka, Gwoza and Banki while several other locations await provision of land by local authorities. Due to the travel restrictions as a result of the state government lockdown directive, the CCCM, Shelter and NFI response continues uninterrupted through remote management by community volunteers to ensure continuity.

**INTERVENTIONS/GAP BY SECTOR**

### CAMP COORDINATION AND CAMP MANAGEMENT

- There are 40 formal and 231 informal camps in the BAY states. 58% of the sites has dedicated site facilitation. 84% of the total sites are in Borno, 9% in Adamawa and 6% in Yobe.

### SHELTER

- 47% of the IDPs are living in emergency and transitional shelter, 34% in makeshift, 11% in collective/communal shelter and 8% in public facilities.
- 1,161HH are living in the open in Mafa [288] and Maiduguri [872].
- 5,178 latrines need desludgement across 87 sites in 15 LGAs.
- 57% of latrines across 107 sites need gender marking.
- 5,178 latrines needs desludgement across 87 sites in 15LGAs (table 1).

**NON-FOOD ITEMS**

- A total of 66,633HH need complete NFI kits. This include 10,697HH in Maiduguri, 10,261HH in Monguno, 8,797HH in Ngala, 8,402HH in Dikwa, 8,236HH in Jere, 3,895HH in Gwoza, 3,867HH in Bama, 3,369HH in Damboa, 3,267HH in Kunduga, 5,842HH in Magumeri, Yola North, Yola South, Girei, Furore, Kaga, Mafa LGA.

### WATER, SANITATION AND HYGIENE

#### WATER SUPPLY

- The main source of drinking and non-drinking water at displacement sites is the borehole. Other sources of water supply include hand pumps, wells, water vendors and water trucking.
- 75% of the displacement sites has an average waiting time at water points less than 30minutes while 18% is between 30minutes and an hour and 3% above an hour (figure 8).

### LATRINES

- 84% of latrines in Borno are functional while 14% are damaged.
- 4 sites in 3 LGAs (Girei, Adamawa state, Jere and Komarga in Borno state) do not have latrines on site.

### SHOWERS

- 82% of the total showers are functional while 18% need to be repaired.
- 12 sites in 4 LGAs (Girei, Adamawa state, Jere, Maiduguri and Dikwa in Borno state) do not have shower on site.
- 2,038 showers needs to be repaired across 65 sites in 14 LGAs (table 2).
FOOD SECURITY (FS)

- 79% of the IDP population received food assistance the previous month. (Fig. 9)
- 1,734 HH received agricultural livelihood assistance in Dikwa [1,035], Jere [300] and Maiduguri. [399]

NUTRITION

- Supplementary feeding for children, pregnant and lactating mothers was carried out in 39% of the camps while screening and supplementary feeding for malnourished children was carried out in 38% of the IDP camps.

HEALTH

- All the camps have established health structures or access to mobile clinics and medical referral mechanism where vaccination activities and essential medicine distribution services are provided by health partners.
- 7% of camps reported cases of malaria.

EDUCATION

- 67% of camps have access to a form of education in the camp or nearby.
- Over 60% of the camps need instructional and writing materials.
- 33% of the camps do not have access to a functional primary school while 34% of the camps do not have access to alternative basic education.

PROTECTION

- 31,004 HH are headed by vulnerable population with 29,820 HH being headed by women (>18 years) while 1,184 HH are headed by children (<18 years).

AVAILABLE ACTIVITIES/SERVICES BY SECTOR

- **RIGHTS**: Activities/services
- **CCCM**
  - Awareness raising/sensitization, camp coordination meeting, complaints and feedback mechanism, hygiene promotion campaigns, inspection of site infrastructure, LGA coordination meeting, monitoring/facilitating fire sensitization campaigns, PWSN meeting, registration for shelter allocation, registration of new arrivals, safety mapping/safety audit, set up committee structures and identification of members, shelter addressing, site coordination meeting with partners and committee representatives, site inspection in response to storms, site level management meetings with committee representatives, site management committee meeting, training of committee members, variant committee meetings.
- **Shelter/NFI**
  - Construction of emergency shelters, distribution of cash/voucher for NFI, NFI kits distribution, shelter repair and improvements.
- **Protection**
  - Child protection services, Gender Based Violence (GBV) services, general protection services and MHPSS.
- **Shelter/NFI**
  - Emergency shelter construction, rehabilitation/opening, extra curricular activities, distribution of learning supplies, training of teachers.
- **Health**
  - Distribution of essential medicines and equipment, establishment of health structure, food distribution, medical referral, vaccination.
- **Nutrition**
  - Cash assistance for prevention of malnutrition, supplementary feeding for children, supplementary feeding for pregnant and lactating mothers, screening and supplementary feeding for malnourished children.
- **Protection**
  - Child protection services, Gender Based Violence (GBV) services, general protection services and MHPSS.
- **Shelter/NFI**
  - Construction of emergency shelters, distribution of cash/voucher for NFI, NFI kits distribution, shelter repair and improvements.
- **Health**
  - Distribution of essential medicines and equipment, establishment of health structure, food distribution, medical referral, vaccination.
- **Nutrition**
  - Cash assistance for prevention of malnutrition, supplementary feeding for children, supplementary feeding for pregnant and lactating mothers, screening and supplementary feeding for malnourished children.
- **Protection**
  - Child protection services, Gender Based Violence (GBV) services, general protection services and MHPSS.
- **Water, Sanitation and Hygiene**
  - Cash transfer activities or voucher to meet water needs, desludging and cleaning of latrines services, construction of latrines as per sector’s standard, construction and rehabilitation of water systems, water systems supported by operations and maintenance.
