

FLOODED AREA (NORTHERN WEST BANK 7 TO 10 JANUARY 2013)

March 2013

OCHA oPt

The analysis of the imagery (see Map) indicated that a total of 84,000 square meters in the Gaza Strip, around Wadi Gaza, in the coastal area of Wadi as Salqa in the Middle Area, and in small pockets in Rafah city and refugee camp, were inundated. The main areas affected by floods in the West Bank were the Sanur Valley in Jenin governorate (6,100 square meters) and Deir Ballut in Salfit governorate (111 square meters).
