38,391

Recovered Cases

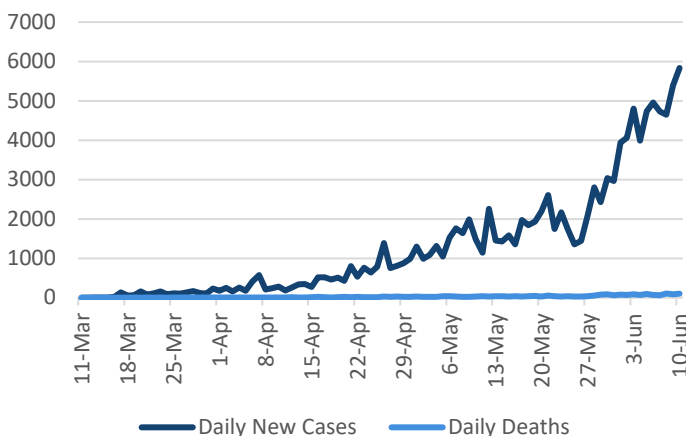

2,356

Deaths

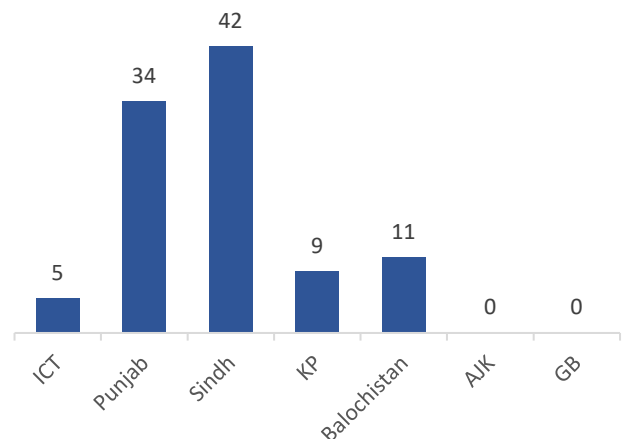

HIGHLIGHTS

- The number of confirmed COVID-19 cases in Pakistan has risen to 119,536 as of 11 June. Increase of 5,834 new cases and 101 deaths in the last 24 hours.
- The most affected province due to COVID-19 pandemic is Punjab 45,463 followed by Sindh 43,790.
- The National Disaster Management Authority (NDMA) has provided 90 more portable ventilators to all provinces, Azad Jammu and Kashmir (AJK), Gilgit-Baltistan and Islamabad Capital Territory (ICT).
- The government has started closing quarantine centers across Punjab, including six in Lahore, following a change in the policy under which the suspected Covid-19 patients were earlier required to quarantine at these centers.
- The Asian Development Bank (ADB) has approved \$500million loan to help Pakistan deliver social protection programs to the poor and vulnerable and expand health sector capabilities.
- According to details released by the National Locust Control Center (NLCC), the anti-locust operations have been carried out in an area of 5,668 square kilometers approximately 1.4 million hectares across 51 effected districts of the country.
