# 260,665 IDPs

Total number of IDPs reported in Mali by humanitarian partners as of 15th of March in the region of Kidal

# 10,100 IDPs

## IDENTIFIED PRIORITIES

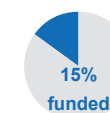

### Access and security

Humanitarian access continues to improve in central regions, and assistance to these areas is increasing. In the north, aid activities remain limited due to insecurity. Military operations, mine incidents and violence by armed groups continue to create a highly volatile operating environment. The Douentza-Gao road has been opened but road traffic north of Douentza is discouraged. WFP has commenced to supply the north of Mali from Niger even though the security of the area remains volatile. Meanwhile, WFP and partners continue to rely on boat convoys on the Niger River to provide assistance from Mopti to Timbuktu with reduced capacity as the river water level is going down. The Algerian border remains officially closed.

### Protection

Around 6,600 IDPs remain stranded at the Algerian border at Tin Zaoutin and another 3,500 IDPs in Talhandak have been identified by partners. IDPs figure for northern Mali remain estimates of the Commission on Population Movements (CMP) of end of 2012. UNHCR has reported an increase of 33,919 malian refugees in neighbouring countries due to the ongoing conflict since 1st of January 2013.

### Funding

**\$58 million** has been disbursed to the 2013 Mali CAP, out of **\$386 million required**. The prioritisation document has been launched the 12th of March.

\* This figure does not include the 1,500 reported refugees in Algeria. A total of 46 refugees in Guinea and Togo are included in the 176,777 refugees reported by UNHCR (<http://data.unhcr.org/MaliSituation/regional.php>).
