Displacements continued in North West Syria (NWS) in December: the CCCM Cluster recorded 367,026 IDP movements, including 73,297 displacements towards Dana subdistrict. This is the largest number of displacements recorded in 2019. Dropping temperatures have intensified the need for fuel. Unfortunately, it is increasingly challenging to get fuel for its unavailability and rising prices. The devaluation of the Syrian Pounds is also affecting the purchasing power of the affected population. The situation is particularly difficult for the IDPs living in substandard buildings, tents and makeshift shelters.

SNFI Response

In December, most of the SNFI Cluster members were extremely active having to respond to the ongoing emergency in addition to providing winter assistance for protracted IDPs. SNFI Cluster members assisted 455,755 people (96,555 with shelter and 359,220 with NFI assistance). This is a sharp increase in people reached with shelter and/or NFI assistance compared to November. On average, 178,000 people per month received shelter and/or NFI assistance in 2019, marking a 39% increase from the previous year. The objective of the Cluster was to reach the largest number of people in need of winterization before the end of December. By then, 464,322 people in need were assisted with winter assistance, almost double than in the previous winter. The Cluster coordination team worked with the Cash Working Group and SCHF on the third continuation of the winter assistance; this is done to the growing number of people in need and to continue providing winter assistance to the largest possible number of people before the end of December.

Key progress indicators

Turkey Hub - Cumulative (Jan - Dec)

- People targeted (TR-Hub) 2.7M
- People reached (TR-Hub) 2,135,360
- People targeted (TR-Hub) 0.8M
- People reached (TR-Hub) 410,894
- People targeted (TR-Hub) 1.9M
- People reached (TR-Hub) 1,724,466

Total individuals reached by NFI - Per month

- NFI Assistance 239K
- Winter Voucher 175K
- Clothes 157K
- Food 72K
- Fuel 65K

Preparedness plan and Gaps

The SNFI Cluster has kept NFI stock to assist more than 187,000 people and tents/shelter kits for 110,000 people who might be affected by displacement or floods. The SNFI Cluster is advocating for additional funding to replace or upgrade damaged tents and to respond to the ongoing emergency. USD 15 Million is needed to assist the new IDPs with NFI and shelter assistance.
