**FACTS & FIGURES**

**End of year 2019**

**SITUATION ANALYSIS**

- The provision of health services continues to be disrupted by ongoing hostilities especially in the North West of the country, where between April and September, at least 43 incidents impacting health facilities or personnel were confirmed by WHO. UNICEF-supported immunization centres have been also affected as 14 centres suspended operations out of the total 98 centres in the third quarter of the year.

- Displaced populations and returnees, particularly those in northeast Syria, northwest Syria, and Rukban camp, are vulnerable to outbreaks of infectious diseases due to unsanitary living conditions, overstretched health services, and low coverage of routine immunization.

**RESULTS**

**PEOPLE REACHED**

- Total number of people reached by UNICEF Health interventions: 4.7 million
- People reached in hard to reach locations by UNICEF Health interventions (convoys and regular programmes): 539,000
- Beneficiaries (estimated) served with essential Health supplies through convoys: 70,000
- HtR locations reached: 259

**FUNDING STATUS**

- 41.9 million required
- 16.6 million available
- 40% Funded

**RECENT HIGHLIGHTS**

- In 2019, UNICEF and partners reached over 2 million pregnant and lactating women and children under five with life-saving essential health and nutrition services through 120 mobile and fixed centers in all 14 Governorates.

- Over 3.4 million caregivers were reached with health and nutrition promotion messages.

- Over half a million children under one year were vaccinated with DTP3 (combine vaccine for diphtheria, tetanus and pertussis) and some 3.3 million were immunized against polio.
