Sources of data

1. Weekly EWARS Reporting Form
2. Mortality Case Report Form
3. Event-based Surveillance Form

Table 1 | Coverage

#	%	
866,000	-	Estimated total Rohingya population ¹
728,786	84%	Total population under surveillance
158	-	Total number of health facilities ²
149	94%	Number of EWARS reporting sites

Table 2 | Early warning performance indicators

W5	Cumulative (2018)	
101	489	Number of weekly reports received
68%	65%	Completeness
68%	64%	Timeliness

¹ Source: IOM. Bangladesh: Needs and Population Monitoring - NPM R7 Report. 15 December 2017

² Source: REACH. Health Facility Mapping Exercise. 12 December 2017

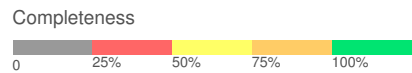

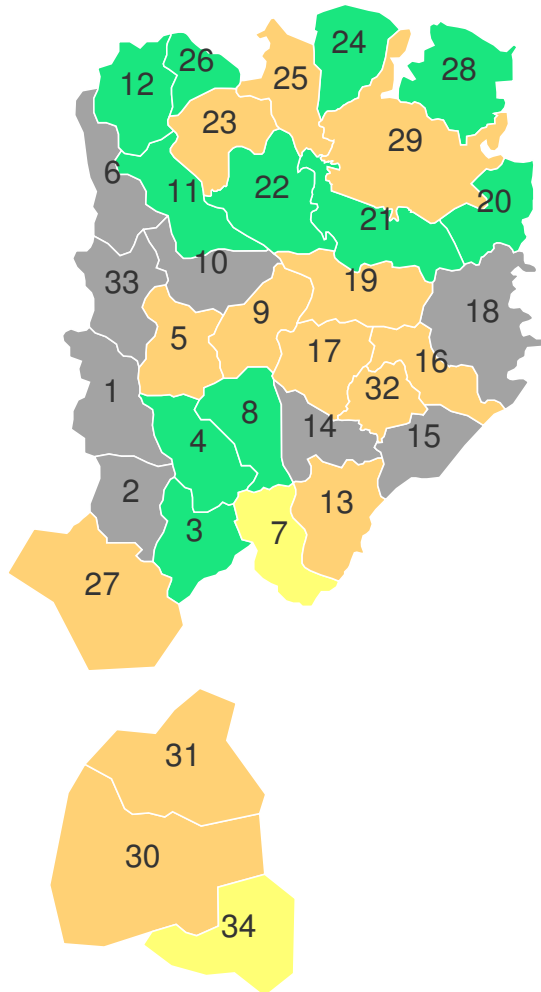

Excluding non-operational health facilities; and excluding specialised services (DTCs, SRH clinics) and mobile clinics (which report under fixed sites)

Table 3 | Alert performance indicators

W5	Cumulative (2018)	
103	417	Total alerts raised
100%	96%	% verified
0%	0%	% auto-discarded
8%	5%	% undergoing risk assessment
0%	2%	% completed risk assessment

Notes

WHO and the Ministry of Health and Family Welfare gratefully acknowledge all partners who have reported the data used in this bulletin.

The data been collected with support from the EWARS project. This is an initiative to strengthen early warning, alert and response in emergencies. It includes an online, desktop and mobile application that can be rapidly configured and deployed in the field. It is designed with frontline users in mind, and built to work in difficult and remote operating environments. This bulletin has been automatically published from the EWARS application.

More information can be found at <http://ewars-project.org>
