

Yemen Market Situation Update

Weeks 1 and 2: November 2015

SUMMARY

- During the first two weeks of November, availability of essential food commodities and fuel continued to deteriorate in several governorates of Yemen, mainly in those where conflicts and airstrikes intensified (Taiz, Sa'ada, Al Bayda, Al Jawf and Marib) as well as among those affected by the Chapala Cyclone (Soqatra, Hadramout and Shabwa).
- Prices of food maintained the high level and rising trend. During the reporting period, the national average price of wheat flour was 57% higher than pre-crisis level, with the highest increase registered in Taiz (134%). Prices of other food items also rose markedly: red beans by 82%, veg. oil by 44% and onion by 74%.
- Fuel prices continued to rise during the reporting period - the national average price of petrol, diesel and cooking gas rose by 274%, 287% and 325%, respectively, compared to the pre-crisis period; while in the most affected governorate of Taiz, the price of diesel increased by 500% and cooking gas by 523%.
- The fragile food security situation may have been deteriorated further during the reporting period, particularly in areas suffering from the persistent conflicts and airstrikes such as Taiz, Sa'ada, Marib, Al Bayda and Al Jawf as well as those impacted by the Cyclone (the southern coastal governorates including the island of Soqatra).

AV Generally Available
 SAV Sporadically Available
 NA Not Available

Wheat Flour

Current Ave. Price: **215**
 Min **170** Max **320**
 Ave. % Change: **57%**

Poor availability of wheat flour persisted in most of the governorates in the country, further deterioration was observed in areas where conflicts escalated. The national average prices rose by 4% from last month, and 57% higher than the pre-crisis period.

Onion

Current Ave. Price: **378**
 Min **280** Max **550**
 Ave. % Change: **74%**

Supply of onion was poor in most affected governorates, not available in Taiz. National average prices of onion rose by 9% compared to last month, and 74% more than pre-crisis period.

Red Beans

Current Ave. Price: **572**
 Min **430** Max **720**
 Ave. % Change: **82%**

Red beans was scarcely available in several governorates. Average price rose by 1% from October and it was 82% higher than the pre-crisis period. The highest price was reported from Taiz.

Vegetable Oil

Current Ave. Price: **492**
 Min **360** Max **700**
 Ave. % Change: **44%**

Vegetable oil continued to be carcelly available in many governorates where conflicts have been intensified. However, the average national price of veg. oil remained unchanged from the previous month, but 44% higher than pre-crisis period. Taiz had the highest price.

Sugar

Current Ave. Price: **249**
 Min **160** Max **330**
 Ave. % Change: **16%**

Availability of sugar was also deteriorated in many governorates. The national average price increased by 16% from pre-crisis, and rose by 2% from previous month. Highest price was in Taiz.

Cooking Gas

Current Ave. Price: **8183**
 Min **5250** Max **12000**
 Ave. % Change: **325%**

Scarcity of cooking gas in most governorates has persisted throughout the country. As a result, the average price rose by 10% from last month, and 325% higher than the pre-crisis period.

Petrol:

Current Ave. Price: **593**
 Min **375** Max **800**
 Ave. % Change: **274%**

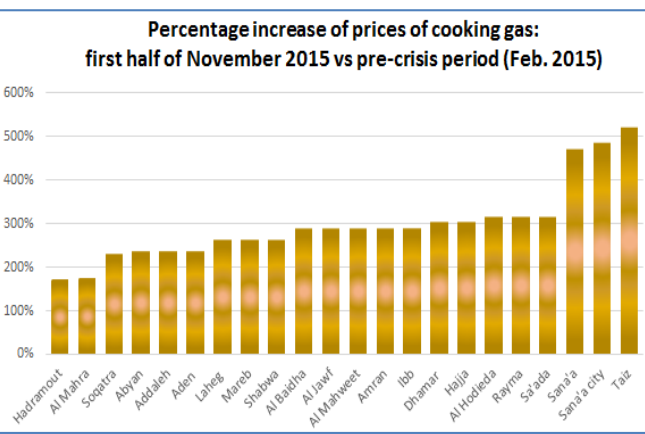

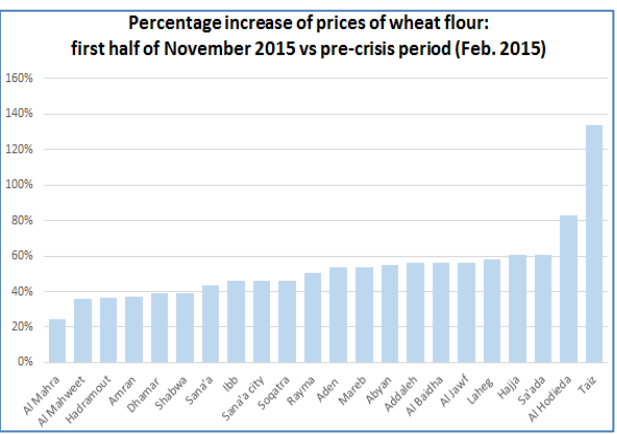

Further deterioration in the scarcity of petrol during the reporting period has resulted in the rise of prices by 2% from last month. The national monthly average price during the reporting period was 274% higher than the pre-crisis period. Highest price was recorded in Taiz which is suffering the most from the continued conflict.

Diesel:

Current Ave. Price: **581**
 Min **350** Max **900**
 Ave. % Change: **287%**

Poor supply of diesel has led to persistently high prices. The national average price of diesel in first two weeks of November rose by 2% from October and was 287% more than the pre-crisis period. Prices in Taiz were the highest.

Refer the last page for more details on governorate level changes of prices compared to pre-crisis period, the previous month, and the 2011 crisis period.
