- In La Gonave, 30% of the schools participating in WFP school feeding programme have been severely damaged

WFP Response

- Food distributions are ongoing in the South and Grand-Anse departments, 77MT have been distributed to more than 13,000 people. Distributions are being carried out directly by WFP or by NGO partners.
- Since October 7th, WFP transported 551MT of food to Les Cayes and Jeremie. Among those, 67MT were transported by the U.S. Department of Defense helicopters to Jeremie.

- Two Additional Mobile Storage Units (MSU) have been sent to Les Cayes and Jeremie to store Emergency Stocks. WFP has now a total of 3 MSUs being set up in Les Cayes and 3 in Jeremie.

Logistics

- Three updated logistic maps are available: The Access Constraints Maps, the General Logistics Planning Map of Grand'Anse and the General Logistics Planning Map of Sud. Link: <http://www.logcluster.org/sector/hurrimat16>
- The Departments of Grand-Anse is now mostly accessible. However, the communes of Chambellan, Bonbon, Moron, Dame-Marie, Corail, Pestel, are accessible with some difficulty; and the communes of Anse d'Hainault, Abricots, Les Irois are still inaccessible.

Resourcing Update:

- Subject to donor agreement, WFP is re-allocating to the emergency response in-country stocks that had been procured for other programs, to the extent that there is no disruption to the supply chain of the other important food assistance programs.
