

Yobe State Cholera Outbreak Situation Report

No. 41: 30th October 2018

Yobe State Ministry of Health

Highlights:

- 3 new cases were reported on 30th October 2018 from 3 LGAs (Gulani and Damaturu).
- 0 death was reported.

Epidemiological Summary:

The total number of suspected cholera cases reported in Yobe state is 1,720 with 61 associated deaths (CFR 3.55%). In the state, up to 561 cases have been reported in Gulani LGA, 484 cases in Gujba LGA and 427 cases in Damaturu LGA. In Fune LGA, 181 cases were reported and 67 cases were reported in Potiskum LGA.

Out of 73 samples collected and tested using cholera RDTs, 58 (79.5%) were positive and 15 (21%) were negative. Again, 9 (47%) out of 19 samples cultured were positive for *Vibrio Cholerae*. However, the 9 positive samples were taken to national reference laboratory for quality checks and further analysis samples and *Vibrio Cholerae* O1 (Inaba) serotype was isolated in 4 out of the 9 samples.

Table 1: Summaries of suspected cholera cases in Yobe State from July to 30th October 2018.

	Gulani	Gujba	Damaturu	Fune	Potiskum	Total
Cases						
New suspected cholera cases	1	0	2	0	0	3
Cumulative suspected cholera cases	561	484	427	181	67	1720
Number of wards in the LGA	12	10	11	13	10	56
Number of wards affected	10	8	11	9	10	48
Deaths						
New deaths	0	0	0	0	0	0
Cumulative deaths	20	19	6	12	4	61
Laboratory						
Number of specimen tested (RDT)	18	12	31	12	0	73
Specimen Positive RDT	15	11	23	9	0	58
Pending result for RDT	0	0	0	0	0	0
Number of samples cultured	5	8	5	1	0	19
Specimen Positive Culture	2	4	2	1	0	9
Pending result for Culture	0	0	0	0	0	0

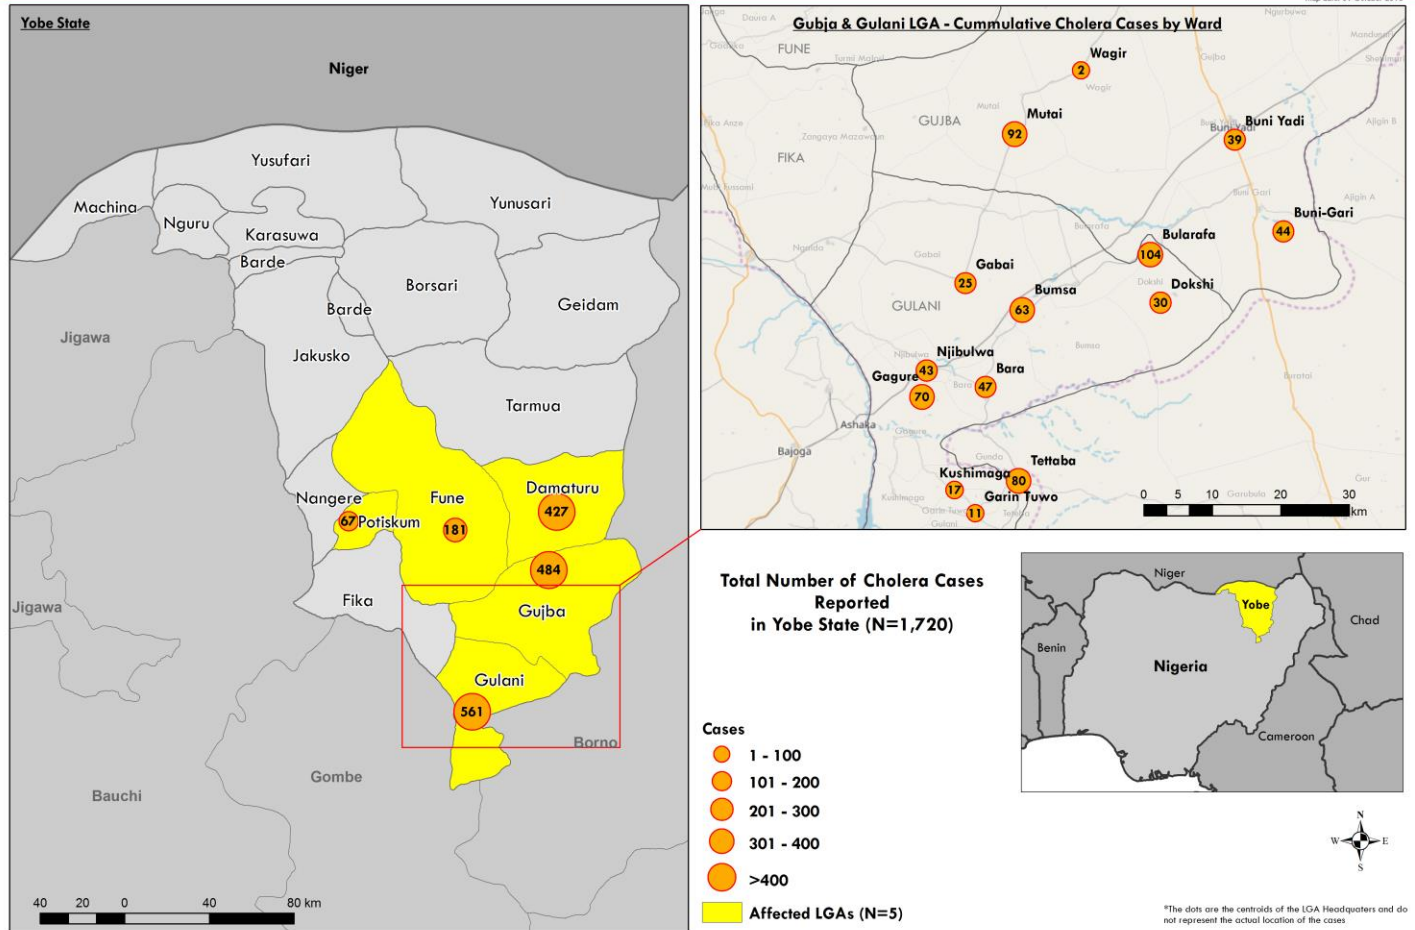

Three (3) new suspected cholera cases reported in Yobe state on 30th October 2018, showing over 50% decrease in the number of cases reported compared to that of the previous day (Fig. 2). 2 of the new cases were reported from Damaturu (Fig 10) and only 1 case was reported from Gulani (Fig. 4). None from Gujba (Fig 6) and Fune (Fig 8) while Potiskum has not reported any case in over 5 weeks (Fig. 12).

Yobe State, Nigeria - Number of Cholera Cases Reported from 22nd August to 30th October 2018

Response Activities

Surveillance:

- Continues line listing of all suspected cholera cases within the city and neighboring communities.
- Continues retroactive case search in communities and health facilities using, MSF-Volunteers, EHA, HTR and LGA RRT team in Gulani, Gujba, Fune and Damaturu.
- Conducted investigation of new suspected cases from 2 LGAs (Damaturu, and Gulani)
- WHO supported EHAs volunteers conducted house-house active case search in Gujba, Gulani, Fune, Potiskum and Damaturu reaching up to 559 households, no patient was identified.
- Priority areas have been identified and communicated to WASH and risk communication teams to scale-up interventions.

Case Management:

	Gulani	Gujba	Damaturu	Fune	Potiskum	Total
Admissions						
New admissions	1	0	2	0	0	3
New Discharges	2	3	4	0	0	9
On admission	3	0	1	0	0	4

- No suspected cholera case was reported in Potiskum LGA since 24th September 2018.
- No mortality was reported in all affected LGAs.

Risk Communication:

- Continues sensitization of Islamiyya and Tsangaya school is ongoing in Galani, Gujba and Damaturu.
- Airing of radio jingles by Yobe Radio Broadcasting Corporation has continued across the state.
- WHO and UNICEF field volunteers distributed 650 sachets of Aqua-tabs in Gulani, Damaturu and Gujba LGAs
- WHO HTR teams, CORPs, AAH, MSF, ICRC, Rescue and UNICEF supported volunteers continue to sensitized peoples on hygiene promotion and health education on hand washing, water purification and dangers on open defecation reaching up to 459 households in Damaturu, Gujba, Fune and Gulani LGAs.

WASH:

- Distributions of NFIs such as Jerry cans, bucket detergent, antiseptic soaps, synthetic mats etc. to the affected high risk household is currently ongoing through the facilitation of Wash partners and WHO EHAs
- UNICEF, AHH, MWR and RUWASA continues response activities in affected location through bucket-to bucket chlorination, clearing of drainages & refuges, and disinfection of households.
- Wash Teams and WHO supported volunteers have disinfected 38 households in Gulani, Gujba and Damaturu.

Coordination:

- LGA RRTs in Gujba, Gulani, Damaturu and Fune LGA conducted daily local coordination meetings, and provided updates to state RRT to mobilize additional resources and technical supports

Daily coordination meetings were consistently being chaired by SMOH at the state level to ensure robust and effective response activities
