Suspect cases by age group and gender

- **FEMALE**
- **MALE**

Response Activities:
- Island clean-up: group gathering to pick up breeding sources of the mosquito; removal of large appliance breeding sites
- Testing of symptomatic pregnant women and suspect cases by Hawaii State Lab and CDC
- Maintenance and update of surveillance registry of all pregnant women in AS and distribution of ZPK kits at LBJ and DOH Clinics
- Supporting and fortifying syndromic surveillance system for the current outbreak
- Development and implementation of communications strategy
- Reinforcing the Unified Health Command to coordinate activities
